Here's what one of our students thinks...

"Excellent Course for supervisors and foreman. You get to better your knowledge around civil and being a supervisor/foreman.

This course has taught me to plan ahead to know where you're going and what you want to achieve. I also have more of a health and safety focus outlook.

The support processes for assessments were very helpful and precise."

Here's what one of our students thinks...

"The course was most helpful in developing my work skills and highlighted the legislative reasons for workplace policies and procedures.

I also learnt time management and goal setting skills. I was able to use real work examples for my assessments and did not need to use the case studies."
