YES! If you are interested in policies and procedures involving sustainability, waste reduction, the environment, social, and business...

How will this Course help my Career...

- Discover more about your new place of employment - Policies, Procedures, and how it all works.
- A proactive way to settle into your new role quickly
- Show your commitment to your new job and profession.
- Gain valuable and in demand skills in environmental management. Understand the risks a changing climate presents to communities, businesses, the natural environment, and the economic opportunities for new sustainable industries.

What Qualification will I Gain...

After completion of this program you will gain your: BSB42315 Certificate IV in Environmental Management and Sustainability

Here's what one of our students thinks...

"The training was most helpful for developing HSEQ skills. I loved the online student area, It was very useful.

'My trainer was very helpful and knowledgeable always available to support me in my course. I hope to have him as my trainer again.'

I have already recommended Global Training Institute to two of my friends."

Fadi Al Hindawi

Gain your qualification NOW while your Employer will pay for it!

Requirements

This qualification must be completed before 14th September 2022

How is this program delivered?

A very simple process that most find interesting, and rewarding.

1-1 Training Program:

- Online access 24/7 to everything you need – course materials, assessments, resource libraries...
- No Exams. No Essays. No college or workshop attendance required
- Complete your assessments based on projects in your current role.
- Monthly Phone appointments with your Trainer – to understand the assessment requirements, determine what evidence you already have and what is needed to complete for each unit, discuss the topic...
- Regular Tutorials via Zoom available to get all your questions answered as needed
- Regular phone sessions with your Completion Coach/Tutor – to help you through the units, sort out any issues, keep you on-track...
- Complete all units over the 12 month period
- Qualification awarded + online graduation celebration

How much time will this course take?

The course runs over 12 months.

Your qualification will be issued after 12 months, when all the units have been completed.

Your assessments may take around 4 hours per week, or perhaps less if you have experience.

As they are work-based projects, you may be able to get some of it done during your work hours. If you have experience, this may be a hunting and gathering exercise for you and then just answer the questions based on your work.
